

CoreTech Cybersecurity Internship Task

Introduction

Name: Rubab Faiz

Education: BS Cyber Security (6th Semester)

City: Nawabshah, Sindh, Pakistan

Skills:

Linux Basic

Python Programming

Networking Fundamentals

Cybersecurity Fundamentals

Digital Marketing

Microsoft Office

Learning Goal:

My goal is to improve my practical cybersecurity skills, learn ethical hacking techniques, understand security tools, and gain real-world experience through the CoreTech Innovation internship.

What is Cybersecurity?

Cybersecurity is the practice of protecting computers, networks, systems, and data from unauthorized access, attacks, damage, or theft.

What are the Main Types of Cyber Threats?

1.

Malware (Viruses, Worms, Trojans)

- 2.
- 3.

Phishing Attacks

- 4.
- 5.

Ransomware

- 6.
- 7.

Denial-of-Service (DoS/DDoS) Attacks

- 8.
- 9.

Password Attacks

- 10.
- 11.

Man-in-the-Middle (MITM) Attacks

- 12.
- 13.

Social Engineering

- 14.

What is the CIA Triad?

The CIA Triad is the foundation of information security:

Confidentiality

Ensures that data is accessible only to authorized users.

Integrity

Ensures that information remains accurate and unaltered.

Availability

Ensures that systems and data are available when needed.

What is Ethical Hacking?

Ethical hacking is the authorized testing of systems, networks, or applications to identify security vulnerabilities before malicious hackers can exploit them.

How Can Cybersecurity Help CoreTech Innovation?

Cybersecurity can help CoreTech Innovation by:

- Protecting company data and customer information.
 - •
Preventing cyber attacks and data breaches.
 - •
Improving system reliability and availability.
 - •
Ensuring secure communication and transactions.
 - •
Building customer trust and business reputation.
 - •
Supporting compliance with security standards and policies.
 -
-
